For any question, please send an e-mail to TC-meetings@ceinorme.it.

HOW TO REACH THE VENUE

From Airport

Alibus shuttle from Capodichino airport

The connection between the airport and the city centre by bus is provided by Alibus, which provides direct connections between the terminal, the central station and the port.

After leaving Naples-Capodichino airport, Alibus stops in Piazza Garibaldi (the central station square), from there take the metro Line 2, stop in Campi Flegrei in order to get to the Meeting venue.

The first departure in the morning is at 06:00, then Alibus has courses every 25 minutes and at peak times, one every 10 minutes. The last departure from the airport is at 11:00 pm

Alibus tickets gives you also the possibility to use all transports of the UNICOCAMPANIA Consortium in Naples. The ticket is valid for 90 minutes from the first validation.

Here the link to the timetable: [ANM Web Site](#)

How to buy your Alibus ticket

Tickets can be purchased at authorised sales points or on board at the cost of € 5,00. At the airport, tickets can be purchased from Sun Store. Remember to validate your ticket as soon as you enter the bus, and keep it until you get off the bus.

You can then purchase a ticket for the Alibus combined with regional train transport directly on the Trenitalia website, at the entrance of Capodichino airport or the port of Naples from Piazza Garibaldi.

Finally, the Alibus ticket can also be purchased via smartphone, using myCicero app, by clicking on the "Transport" menu and then clicking on "Shuttles". Once you have selected "Alibus", you can purchase the ticket. Airport –

Central Station and vice versa: 15 min.

Airport - Central Station and vice versa: 15 min

Airport - Port and vice versa: 35 min

Taxi service

The Taxi area is located in front of Arrivals.

Predetermined fares are in force on pre-established routes, both urban and extra-urban (City Centre, Molo Beverello, Mergellina, Pompeii, Caserta, etc.), including any extra fee (to/from airport, night, holidays, luggage, pets, radio call). The fare includes all extras: to/from the airport, night, holiday, ring road, luggage, animals and radio call, regardless of the number of passengers. Urban and extra-urban fares refer to those established by the Municipality of Naples.

Types of electrical sockets

In Italy, three types of electrical sockets and plugs are mainly used:

- Two-pole type C socket with two holes leading to the poles without the central earth, capable of supporting current loads up to 10 amperes;
- Three-pole type L socket (Italian) with three aligned holes leading to the poles and to the central earth, capable of supporting current loads up to 10 or 16 amperes depending on the distance between the poles;
- Socket type F or schuko (German) with two holes leading to the poles and two side earth clamps, generally used for household appliances and capable of supporting current loads up to 16 amperes.

Italian power grid is in alternating current at the frequency of 50 Hz, voltage is 230 V for single-phase users.
